How far would you go? If human society was genuinely at risk, how cruel and heartless would our conscience allow us to be, in order to preserve humanity? If you thought the only means of preserving humanity was to capture, imprison and breed humans against their will - would you sanction it?

How far would you go... to save the ones you love? After taking shelter with the Refugees, and with Thor and Walt by her side, Ariet brings Sam into the world. Having left Mason behind to bring down the leaders of the New World, Ariet and her Guardian Thor struggle to hide Sam's abilities from the Refugees. Although the Refugees have become accepting of them, will they try and use Sam's abilities to their advantage? A war is being staged and if his genetic abilities are replicated, the Refugees could create a super army. With the aid of Walt and a handful of people she trusts, Ariet and Thor risk everything to protect Sam. Will it be enough? This book is a horror story, a science fiction story and dark, thought experiment into the extreme application of genetic selection. It raises interesting ethical questions and poses the question - How far would you go?
