The Power of Convergence: Linking Business Strategies and Technology Decisions to Create Sustainable Success Faisal Hoque

From technology giants to major airlines to government agencies, the landscape is littered with the shells of once-promising enterprises that failed to do one thing: converge their impressive technology initiatives with their business strategies. With countless opportunities lost and billions wasted, these examples provide a much needed wake up call that it is time to institutionalize a set of repeatable management practices to successfully run an organization. "The Power of Convergence" makes the case and lays the groundwork for a new understanding of the role of technology in business. No technology should be developed or deployed without a full vision of how it advances business goals, addresses customer needs, or both. Beyond that, technology should be so tightly inter twined with strategy that the two drive each other, with each at the ready when market opportunity materializes however suddenly. With compelling examples of successes and failures at organizations from Ford Motor Company to the FBI, "The Power of Convergence" provides the framework and mechanisms for uniting business and technology, seeding horizontal collaborations and partnering opportunities, and capturing strategic possibilities created through convergence.

Jerry Schooler:

The book The Power of Convergence: Linking Business Strategies and Technology Decisions to Create Sustainable Success will bring you to the new experience of reading a book. The author style to spell out the idea is very unique. When you try to find new book to see, this book very suited to you. The book The Power of Convergence: Linking Business Strategies and Technology Decisions to Create Sustainable Success is much recommended to you you just read. You can also get the e-book from your official web site, so you can quickly to read the book.

William Holmes:

As a scholar exactly feel bored for you to reading. If their teacher inquired them to go to the library or make summary for some reserve, they are complained. Just tiny students that has reading's heart and soul or real their passion. They just do what the educator want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that reading is not important, boring and also can't see colorful pics on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this The Power of Convergence: Linking Business Strategies and Technology Decisions to Create Sustainable Success can make you sense more interested to read.
