The Morality of Evolution

Roland Schutz

The Morality of Evolution Roland Schutz

The Morality of Evolution takes a look at the impact the theory of evolution has on society's moral values and beliefs. The belief that perhaps God did not create the earth, everything has evolved has contributed greatly to the decline of values in many. God is either a creation of our own minds, or God is the Creator of our minds and all else that exists. What is right? What is wrong? What is moral? What is immoral? What is good? What is evil? Either we place our faith in God as the Creator of heaven and earth, or we place our faith in an everchanging process. With evolutionary thinking, God is replaced by words such as freedom, hope, and justice. We have turned to family for guidance, we have turned to the church for guidance, we have turned to the workplace for guidance, and we have turned to the government for guidance.
