Why Buy This Book?

Because it will set you on the fast track to being a successful, self-published author, generating a high income from writing and publishing your own books.

What This Book Covers:

So you want to be a published fiction writer, huh? Well, the good news is that you can - because nowadays, no-one can stop you. Thanks to today's amazing technology and the self-publishing revolution that is accompanying it, there is no reason at all why you cannot publish your fiction - and make a full-time living from doing so.

You don't have to be the next J.K.Rowling, and you don't need a degree in Creative Writing or Literature. If you can write good books in markets where people are buying books, then you are already halfway to becoming the next self-publishing success story (and the number of those is growing fast).

The rise of the eBook has been fast and dramatic. Amazon is selling three ebooks for every print book - and they sell an awful lot of print books! James Pattereson has now racked up over five million ebooks sales, mostly in the last few months, and many authors are well passed the million sales mark. And while some of those are well-known writers, others are brand-new writers who had never published anything before ebook publishing gave them the opportunity to succeed.

No More Rejections! If you have tried submitting a novel to traditional publishers, you will know just how frustrating the whole process can be. You write a book that you know is at least as good - if not better - than the ones you see on the bestsellers' shelf of your local bookstore. But all that happens is that your book disappears in the publishing mill for weeks, or even months, only to reappear eventually accompanied by a rejection slip.

The problem is that traditional publishers have to take big risks to launch a book. Most publishers lose money on eight out of ten titles they publish. So they have to be very selective to have a shot at finding the one or two books that will be runaway successes and make enough money to keep the publisher out of the bankruptcy court.

Thanks to the self-publishing revolution - and especially Amazon's Kindle publishing platform - all that has changed. Now you can publish your own book right now, with literally no expenditure.

No more rejections, no more frustrations. No-one telling you that your book isn't right for the market, or that you might try sending it somewhere else. You can now be the publisher, make all the decisions, and make things happen. In fact, if you know what you are doing, it is entirely possible to launch a book today, and see it on the bestsellers' list tomorrow. This book will show you how. It's easier than you might think.

Table Of Contents:

- Chapter 1- Why Now is The Best Time To Be a Fiction Writer - Ever!
- Chapter 2 - What You Can Learn From Million-Selling Self-Published Authors
- Chapter 3 - Choosing What To Write For Maximum Success
