Somewhere Over the Rainbow: A Soul's Journey Home Gloria Chadwick

A visionary novel about the reality of reincarnation that offers a lighthearted look into the ups and downs of being spiritual in a physical world.

Amanda is a free spirit who somehow manages to get herself stuck in the energy vibration of a physical body. Of course she did it on purpose; nothing happens by accident. She's a little embarrassed to find herself on earth again and wonders how she ended up here when she vowed she'd never reincarnate again. Her most down-to-earth task is to see through the misty illusions of things for herself and to remember her spiritual nature. In the course of events, she gets sidetracked by what everyone says is real life. But she's not sure what's real anymore. She's been dreaming about rainbows lately and now she's beginning to wonder if her life is really a dream she's having.

Lavender is trying to remember something she's forgotten about her spiritual nature so she registers for school in the universe and begins classes in Time and Space, Energy and Matter, and Reality Awareness. She's a little concerned about the whole idea of synchronicity and the simultaneous time-space concept; she's not sure if she can handle everything at once. Her destiny is to unearth the mysteries of the universe and to rediscover the Scroll of Knowledge she wrote in Egypt. But she's reluctant to remember her experiences as a philosopher and has turned off her spiritual awareness.

Rainbow is Amanda's higher self and Lavender's teacher who tries to help them see the light within themselves. But Rainbow is really more than she appears to be at first, or even second, glance. As you travel somewhere over the rainbow, you'll remember who you really are as you look for the light within yourself and journey the path that all souls must travel to find the way home.
