## **Communicating Clearly About Science and Medicine: Making Data Presentations as Simple as Possible...But No Simpler** John Clare

Scientific communication is challenging. The subject matter is complex and often requires a certain level of knowledge to understand it correctly; describing hazard ratios, interpreting Kaplan Meier curves and explaining confounding factors is different from talking about a new car or clothing range. Processes, for example in clinical trials, are laborious and tedious and knowing how much of the detail to include and exclude requires judgement. Conclusions are rarely clear cut making communicating statistical risk and probability tough, especially to non-statisticians and non-scientists such as journalists. *Communicating Clearly about Science and Medicine* looks at these and many more challenges, then introduces powerful techniques for overcoming them. It will help you develop and deliver impactful presentations on medical and scientific data and tell a clear, compelling story based on your research findings. It will show you how to develop clear messages and themes, while adhering to the advice attributed to Einstein: 'Make things as simple as possible...but no simpler.' John Clare illustrates how to communicate clearly the risks and benefits contained in a complex data set, and balance the hope and the hype. He explains how to avoid the 'miracle cure' or 'killer drug' headlines which are so common and teaches you how to combine the accuracy of peer-to-peer reviewed science with the narrative skills of journalism.

### **From reader reviews:**

#### **Robert Fox:**

Book is to be different for every single grade. Book for children until adult are different content. To be sure that book is very important for us. The book Communicating Clearly About Science and Medicine: Making Data Presentations as Simple as Possible...But No Simpler has been making you to know about other know-how and of course you can take more information. It is extremely advantages for you. The guide Communicating Clearly About Science and Medicine: Making Data Presentations as Simple as Possible...But No Simpler is not only giving you a lot more new information but also for being your friend when you experience bored. You can spend your spend time to read your book. Try to make relationship using the book Communicating Clearly About Science and Medicine: Making Data Presentations as Simple as Possible...But No Simpler. You never sense lose out for everything should you read some books.

#### **Janice Evans:**

The book with title Communicating Clearly About Science and Medicine: Making Data Presentations as Simple as Possible...But No Simpler includes a lot of information that you can study it. You can get a lot of gain after read this book. This particular book exist new knowledge the information that exist in this reserve represented the condition of the world today. That is important to yo7u to learn how the improvement of the world. This specific book will bring you inside new era of the syndication. You can read the e-book on the smart phone, so you can read this anywhere you want.

#### **Loretta Pena:**

The actual book Communicating Clearly About Science and Medicine: Making Data Presentations as Simple as Possible...But No Simpler has a lot details on it. So when you make sure to read this book you can get a lot of gain. The book was written by the very famous author. The writer makes some research before write this book. This kind of book very easy to read you can find the point easily after reading this article book.

#### **Eduardo Fernandez:**

Your reading sixth sense will not betray you actually, why because this Communicating Clearly About Science and Medicine: Making Data Presentations as Simple as Possible...But No Simpler guide written by well-known writer who knows well how to make book that can be understand by anyone who have read the book. Written inside good manner for you, leaking every ideas and producing skill only for eliminate your current hunger then you still hesitation Communicating Clearly About Science and Medicine: Making Data Presentations as Simple as Possible...But No Simpler as good book not simply by the cover but also from the content. This is one book that can break don't assess book by its cover, so do you still needing another sixth sense to pick this particular!? Oh come on your looking at sixth sense already told you so why you have to listening to a different sixth sense.
