Forensic Psychology: Concepts, Debates and Practice

Forensic Psychology: Concepts, Debates and Practice

This book brings together academics, practitioners and experts in the field of forensic psychology to demonstrate the scope of the discipline and push its parameters. Its aim is to go beyond introductory texts to challenge perceptions, to raise questions for research and to pose problems for practice. The editors hope to inspire and stimulate debate about how forensic psychology can aid the practice of justice.

The book is divided into six sections, addressing key topics from the discipline: investigation and prosecution; testimony and evidence; serious and persistent offending; treatment as intervention; intervention and prevention and punishment and corrections. The contributors are drawn from the UK, the USA and Australia.

This updated, revised and significantly expanded edition develops the picture of diversity and depth of forensic psychology; considers ways in which the discipline has progressed and identifies challenges for its future sustainability and growth.

- includes a new section on treatment as intervention with contributions on personality disordered offenders; anger control group work with forensic psychiatric inpatients; and developments in treatment for drug misuse offenders
- additional chapters throughout including contributions on UK police interviews; the investigation and prosecution of rape; the effect of gender in the courtroom; forensic psychology and terrorism; the aetiology of genocide; self harm in prisons; post-corrections reintegration and many more
- an innovative textbook on forensic psychology exploring application of the subject and setting forensic psychology in a broader context
- demonstrates ways in which forensic psychology can aid the practice of criminal justice

This book will be essential reading for students of forensic psychology and practitioners working in the field.

From reader reviews:

Michael Milliner:

Nowadays reading books be a little more than want or need but also be a life style. This reading addiction give you lot of advantages. The advantages you got of course the knowledge the rest of the information inside the book which improve your knowledge and information. The information you get based on what kind of publication you read, if you want have more knowledge just go with knowledge books but if you want really feel happy read one using theme for entertaining such as comic or novel. Typically the Forensic Psychology: Concepts, Debates and Practice is kind of e-book which is giving the reader capricious experience.

Marsha Bridges:

Reading a book for being new life style in this yr; every people loves to study a book. When you go through a book you can get a great deal of benefit. When you read publications, you can improve your knowledge, due to the fact book has a lot of information into it. The information that you will get depend on what forms of book that you have read. If you need to get information about your research, you can read education books, but if you act like you want to entertain yourself read a fiction books, these kinds of us novel, comics, along with soon. The Forensic Psychology: Concepts, Debates and Practice offer you a new experience in looking at a book.

Cleta Blackwell:

Within this era which is the greater individual or who has ability in doing something more are more treasured than other. Do you want to become one among it? It is just simple strategy to have that. What you are related is just spending your time almost no but quite enough to enjoy a look at some books. One of several books in the top listing in your reading list is definitely Forensic Psychology: Concepts, Debates and Practice. This book that is certainly qualified as The Hungry Slopes can get you closer in turning out to be precious person. By looking upwards and review this publication you can get many advantages.

Donald Warren:

As a university student exactly feel bored to reading. If their teacher inquired them to go to the library in order to make summary for some publication, they are complained. Just very little students that has reading's soul or real their passion. They just do what the teacher want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that reading is not important, boring along with can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this Forensic Psychology: Concepts, Debates and Practice can make you feel more interested to read.
