Dynamic Games in Economic Analysis: Proceedings of the Fourth International Symposium on Differential Games and Applications August 9-10, 1990, ... Notes in Control and Information Sciences)

The theory of dynamic games is becoming an increasingly important tool in economic analysis. This series of papers, taken from an international symposium on the subject of differential game theory and their applications, describes such issues as problems in management science and economics, incentives and coordination, resource management and environmental problems, and hierarchical game models and computational aspects.
