Quantitative Methods in Finance

Terry J. Watsham, Keith Parramore

Quantitative Methods in Finance Terry J. Watsham, Keith Parramore

This book progresses from a review of very basic financial mathematics such as simple and compound interest and the time value of money, to more complex statistical techniques such as generalized autoregressive conditional heteroskedasticity (GARCH) u a technique used in time series analysis. The book is in essence a maths and statistics textbook that is written in the context of the financial world u the book shows the application of the mathematical techniques presented in financial situations.
